## Projects

### surveyFriend -

*Deployment:* <https://survey-app-silk.vercel.app/>

- Full-stack survey creation/management app developed with the T3 Stack (Next.js, React.js, Tailwind CSS, tRPC, TypeScript). Serverless backend with Prisma, PostgreSQL, Supabase. UI created using Tailwind CSS along DaisyUI to efficiently develop a sleek, responsive interface. Login with OAuth 2/Next Auth with GitHub, Discord, and Google providers. Git version control utilized during development to simulate proper version control in a professional/collaborative environment.
- Tools/Languages: HTML, CSS, TypeScript, Next.js, React.js, Node.js, Tailwind CSS, Prisma, tRPC, OAuth 2/Next Auth, PostgreSQL, Supabase

### TeamEZ -

*Deployment:* <https://teamez.herokuapp.com/>

- Built front-end with React.js and SASS to showcase UI/UX skill set. Created custom hooks to make reusable queries and frequently used functions. Utilized RESTful routing with Axios and Express.js backend. Redux.js used to store state across app. Integrated authentication using JSON Web Token. Created a persistent server-side database using MySQL. Refactored post-deployment with TypeScript. Utilized Git during development to simulate proper version control in a professional/collaborative environment.
- Tools/Languages: HTML, SASS, TypeScript, React.js, Axios, Node.js, Express.js, MySQL, Sequelize, Redux.js, JWT

### Weather Dashboard -

*Deployment:* <https://weather-gsepxpyo4-rreeves1996.vercel.app/>

- Built front-end using React.js. Utilized SASS to create custom CSS library. CSS animations to make page navigation smoother and more visually appealing. Built query system with custom React.js hooks to create reusable queries to third-party API and frequently used functions.
- Tools/Languages: HTML, SASS, TypeScript, React.js
