Portfolio: https://rreeves.dev/

*Enthusiastic engineer with an aggressive appetite for learning software development
and collaboration, bringing 9 years of experience working on diverse teams
of various sizes in multiple fields.*

Technical Skills

Preferred stack: Next.js, React.js, TypeScript, SASS/SCSS or Tailwind CSS, Node.js, Express.js
Preferred technologies: Redux.js, React Query, Axios, Jest, React Testing Library, MySQL, PostgreSQL

Projects

surveyFriend - *https://survey-app-silk.vercel.app/*
Full-stack survey creation/management app with clear, concise code and intuitive user experience

- Utilized Prisma, PostgreSQL, and tRPC to create models and a database that was intuitive and provided an extremely workable back-end.
- Created interface with Tailwind CSS to bolster productivity while also providing responsiveness and accessibility. DaisyUI was used to easily make the UI presentable.
- tRPC
- Used Next Auth and OAuth 2 with Google, GitHub, and Discord providers to allow quick and secure access for new or returning users.

Next.js, React.js, TypeScript, Node.js, Tailwind CSS, Prisma, tRPC, OAuth 2/Next Auth, PostgreSQL

Weather Dashboard - *https://weather-gsepxpyo4-rreeves1996.vercel.app/*
Weather forecast app with visually appealing and easily-navigable interface

- Created interface using SASS to allow for visually appealing data display and navigation, with CSSAnimations used to smooth page transitions.
- Optimized data handling to make fetched data more easily readable/usable to ensure code maintainability.
- Used custom React hooks for queries to improve productivity and code clarity.

React.js, TypeScript, Node.js, SASS/SCSS, Axios

TeamEZ - *https://teamez.herokuapp.com/*
Full-stack app allowing for team/employee management and visualization

- Back-end with RESTful API endpoints and routing using Express.js, Sequelize and a MySQL database; features secure user registration and login.
- User interface created from scratch in order to showcase design capability and allow clear user interaction and data display.
- Used custom React hooks in order to keep code clean and maintainable while improving productivity by organizing frequently-used functions into their own hooks.

React.js, TypeScript, Node.js, SASS/SCSS, Axios, Express.js, MySQL, Sequelize, Redux.js

Education

University of Washington Boot Camp - *Full-Stack Web Development*   *Graduated 9/22*
  Grade: A-
Shoreline Community College - *Automotive Technology*   *Graduated 9/17*
  Grade: B+

Work Experience

Holliday Masonry - *Mason/Hod Carrier*   *7/20 - 2/21, 7/22 - 6/23*
N.W. Cutting-Edge Masonry - *Mason/Hod Carrier*   *3/21 - 7/22*
  Soft Skills: Divergent thinking, working efficiently on a team, working under pressure, learning a nuanced
          skill/profession, multi-tasking, leadership
Lessons In Your Home - *Piano/Guitar Teacher*   *3/21 - 7/22*
  Soft Skills: Time management, professionalism, communication, mentoring & leadership, effective planning
Pep Boys Kirkland - *Assistant Shop Manager*   *12/18 - 2/20*
  Soft Skills: Time & employee management, professionalism, sales & customer relations, mentoring, working
          efficiently on a team, working under pressure, multi-tasking, leadership
Performance Motors - *Automotive Technician*   *3/17 - 10/18*
  Soft Skills: Time management, communication, divergent thinking, working under pressure, learning a nuanced
          skill/profession
